

60W
PCIe 12V
5A Power
Supply

SKU:
300-036

Description

This 12V 5A AC/DC adapter is the perfect solution for powering your Digilent NetFPGA-1G-CML board. With the PCIe output connector, you can use this power supply with other devices that use PCIe power connectors.

Note:

- Not recommended for the NetFPGA-SUME
- Not for use with Xilinx[®] development boards

Features:

- Rated AC input voltage: 100 ~ 240VAC, 50-60Hz
- AC input current: 1800mA
- Output DC voltage: 12VDC, +/-5%
- DC output current: 0-5000mA
- Output connector: 6-pin molex PCIe
- Efficiency: Guaranteed at least 87%
- MTBF: 40,000 hr @ 25 C
